Cijenjene kolegice i kolege, dragi prijatelji,

Velika nam je čast i zadovoljstvo pozdraviti vas u ime Organizacijskog odbora na 3. Hrvatskom kongresu patologa i sudskih medicinara, 3. Hrvatskom kongresu kliničkih citologa i 1. Hrvatskom simpoziju citotecnologa s međunarodnim sudjelovanjem, u Opatiji od 8. do 11. svibnja 2005.

Neobično nam je drago što je po prvi puta Kongres organiziran kao most između tri srodna morfološka društva, čime nam je pružena prilika za razmjenu znanstvenih istraživanja, novih ideja i tehnologija te njihova primjena u svakodnevnoj dijagnostičkoj praksi.

Vjerujemo da je odabir tema i aktivno sudjelovanje vrlo uglednih svjetskih i domaćih stručnjaka pobudio iznimno zanimanje liječnika različitih specijalnosti koji se bave morfologijom ili njene rezultate koriste u svakodnevnom radu. Rad Kongresa odvija se kroz plenarna predavanja, simpozije, seminare, usmena izlaganja i poster sekcije.

Drago nam je što boravak u Opatiji možemo koristiti za ugodno druženje tijekom Kongresa, obilazak Grada, izlet u unutrašnjost Istre te zajedničku večeru.

Opatijska rivijera s više od 160 godina tradicije u turizmu, predstavlja jedno od najpoznatijih turističkih mjesta na obali. Za vrijeme Austro-Ugarskog carstva bila je ekskluzivno ljetovalište europskog plemstva. Raskošni hoteli i vile, okružene prekrasnom prirodom, ugošćavale su brojne goste iz najviših europskih krugova, i to tijekom cijele godine, zahvaljujući svojoj blagoj klimi. Predivni vrtovi, puni mirisnog sredozemnog raslinja, palmi i kamelija, učinili su Opatiju nezaboravnim ljetovalištem.

Izlet u centralni dio Istre, na pola sata vožnje od Opatije, pruža nam mogućnost da upoznamo ljepote vinskih cesta i seoskog turizma ovog kraja.

S nadom u ispunjenje vaših očekivanja, napominjemo da uspjeh Kongresa ovisi i o vašem aktivnom sudjelovanju.

Dobrodošli u Opatiju.

udruge citotecnologa

Dear colleagues and friends,

It is our pleasure to solute you, on behalf of the Organizing Committee, on the 3rd Croatian Congress of Pathology, Forensic Medicine, Clinical Cytology, and the 1st Croatian Symposium of Cytotechnology with international participation, in Opatija, Croatia, 8 -11 May 2005.

In our attempt to achieve the Congress objective and meet the scientific and professional standards in different fields of pathology, cytology, and forensics, we shall be joined by invited speakers, prominent foreign experts. The Congress is organized in plenary sessions, slide seminars, oral presentations and poster sections.

We are particularly happy that it is for the first time that Congress in organized by three related professional societies, which offers us a chance to integrate our interests and exchange experience resulting from our scientific and professional work.

We would like you to use the participation at the Congress for pleasant socializing, sightseeing of Opatija, trip to Istrian inland, and a dinner organized for all the participants.

The Opatija Riviera has over 160 years long tradition in tourism, and Opatija is one of the most famous coastal tourist resorts. In Austro-Hungarian era it was an exclusive summer resort for the European aristocracy. Exquisite hotels and villas located in beautiful locations have hosted numerous visitors from the creme of the European societies in all four seasons, due to the mild climate. Charming gardens of Mediterranean plants, palms, and camellias have made Opatija a particularly attractive holiday resort.

An excursion to the central part of the Istrian Peninsula, half-an-hour drive from Opatija, is a pleasure trip to learn about the wine roads and rural tourism of the region.

We hope we shall meet your expectations, and the success of the Congress and Symposium shall certainly depend on your active participation.

Welcome in Opatija.
